

INSTALLATION INSTRUCTIONS

type: ELEKTRA 3 LED

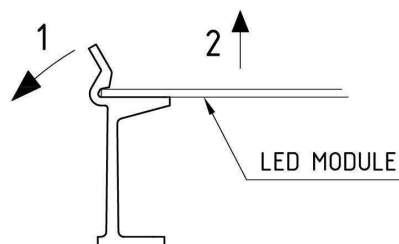

The luminaire can be used as ceiling and wall.

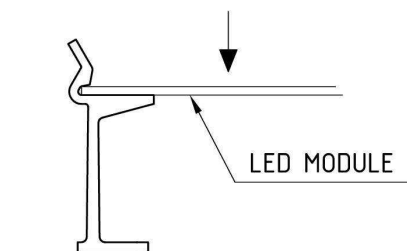

- by angular rotation counter-clockwise loosen the shade from the fixture

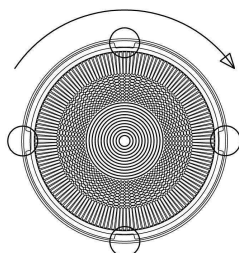

- check, if the electrical supply is switched off
- take LED module out of the holders 1 → 2

- extend the input cable through opening in the fixture and fix it to the wall (ceiling) by screws through rubber washers
- connect the input conductors to the lamp socket
- insert LED module back into the brackets in the original position and snap into the brackets

- put the shade on the fixture and by angular rotate clockwise and tighten

CAUTION when handling the LED module and feeder cables to the LED module! Do not touch the LEDs!

Electrical installation and safety:

Generally it is necessary to follow the EU regulations. At any revision or service activity it is necessary to disconnect lighting fitting from the electrical network. Only qualified and experienced person can do this work.
